Summary

Full Stack Developer with 3+ years of experience building scalable web and mobile applications using React, Next.js, React Native, Node.js, and modern backend technologies. Experienced across frontend and backend development, with a growing focus on AI-powered applications, LLM integrations, and intelligent automation.

Experience

Full Stack Developer (React.js | Next.js | Node.js | React Native | AI/LLMs)

Tekxai — Dec 2025 – Present

- **Scalable Frontend Development:** Architect and develop scalable web and mobile applications using React.js, Next.js, and React Native.
- **AI-Powered Development:** Integrate LLMs and AI APIs into real-world products to build intelligent features, automate workflows, and enhance user experiences.
- **Mentorship & Collaboration:** Guide and mentor junior engineers, providing code reviews, best practices, and workflow improvements.
- **Cloud & Application Architecture:** Deploy and maintain production applications using AWS and modern development practices, focusing on scalability, performance, and reliability.
- **Backend Development & APIs:** Developed REST APIs using Node.js and Express and integrated MongoDB/PostgreSQL databases to support scalable applications.

Full Stack Developer (React.js | Next.js | Node.js | React Native)

YODO — Nov 2023 – Dec 2025

- **UI Architecture Improvements:** Spearheaded UI architecture enhancements.
- **Responsive and Adaptive Design:** Shaped user interfaces with a focus on responsive design, delivering a consistent experience across diverse screen sizes.
- **State Management and API Integrations:** Managed complex applications states using Redux Toolkit, Zustand and Context API, seamlessly integrating RESTful APIs.
- **Component Development and Reusability:** Designed modular, reusable components in React and React Native for faster development and easier maintenance.
- **Collaboration and Version Control:** Collaborated with UI/UX designers to implement features and utilized git for version control to facilitate collaborative development and code review processes.
- **Backend Development & Integration:** Developed and integrated REST APIs, authentication flows, and MongoDB-based services while collaborating on API architecture and data models.
- **Static Site Generation and Optimization:** Leveraged Next.js for static site generation, enhancing load times and SEO.

Projects

Ask Charles | AI-Powered Image Q&A Platform

- **AI-Powered Image Analysis:** Built an AI-driven platform that allows users to upload images of coins, artifacts, and collectibles and receive contextual insights and answers.
- **AI/ML Integration:** Integrated AI and LLM APIs to analyze visual content, interpret user queries, and generate relevant responses based on uploaded images.
- **Payments & Monetization:** Integrated **Stripe** for secure payments, enabling users to purchase additional image evaluations and extend platform usage.

Metrabell | AI Lead Generation & Sales Workspace

- **AI-Powered Lead Generation:** Built an AI-driven platform that captures and scores leads from **WhatsApp and Instagram conversations**, categorizing prospects as hot, warm, or cold based on buying intent.
- **Lead Pipeline & Action Queue:** Developed lead management, pipeline stages, AI conversion scoring, revenue tracking, and a prioritized action queue to help teams focus on high-intent leads.
- **Omnichannel Inbox & Analytics:** Built a real-time unified inbox with **WhatsApp/Instagram messaging**, team assignment, SLA tracking, and analytics for response times, pipeline value, and conversions.
- **Workspace & Channel Onboarding:** Developed multi-role workspace dashboards and onboarding flows for connecting and managing business messaging channels.

LearnerCruise | AI-Powered Nursing Quiz & Learning Platform

- **AI Study Assistant:** Built an AI-powered study assistant that provides real-time, tutor-style responses with **streamed LLM interactions** to help nursing students study and understand complex topics.
- **Quiz & Learning System:** Developed interactive nursing quizzes with AI-powered analysis and summaries to provide students with personalized learning insights and feedback.
- **Student & Admin Experiences:** Built dedicated student and admin interfaces, including quiz management, learner progress, and content administration workflows.
- **AI Configuration & Media:** Implemented admin controls for managing **AI providers, LLM models, embeddings, and multimedia content** used across study assistance and quiz features.

ESA Helper | Smart ESA Management Platform

- **Multi-Role System:** Built a multi-role system for **parents, vendors, and admins** to automate ESA purchases, reimbursements, and curriculum generation all in one place.
- **Payments & Integrations:** Integrated **Stripe** for secure subscription payments, **Plaid** for financial verification, and **OCR** to auto-extract data from uploaded receipts and generate compliant curriculums.
- **Streamlined User Experience & Operations:** Enabled **parents** to track reimbursements, manage students, and submit curriculums; **vendors** to manage offerings; and **admins** to oversee compliance and user operations.

APC | Ad Playback & Scheduling Platform

- **Ad Management System:** Enabling users to create, schedule, and monitor ads for playback on devices.
- **Payment Validation:** Integrated Stripe and payment validation to confirm bookings before generating dynamic ad playlists.
- **Collaboration with developers:** Collaborated with backend and Python developers to design APIs for playlist creation and device communication.

Technical Skills

Frontend: JavaScript, TypeScript, React, Next.js, Tailwind CSS, SCSS, Shadcn, Tanstack Query, Redux Toolkit, Zustand, Websockets
Mobile: React Native, Expo, Cross-Platform Development
AI: LLMs, OpenAI API, AI Integration, Prompt Engineering, RAG
Backend: Node.js, Express.js, MongoDB, PostgreSQL, Mongoose, Drizzle
Tools & Cloud: Git, GitHub, Postman, Swagger, Docker, Stripe, Mapbox, Socket.io, Vercel, AWS (EC2, S3, IAM, CloudFront)

Education

Government College University	2020-2024
<i>Bachelor's in Computer Sciences</i>
